

FILMOGRAPHY - GERALD SALMINA

When I Windsurfed professionally between 1989 and 1994, it was not foreseeable for me to work as a film producer or director. A financial necessity and the love for my sport let me learn the genre autodidactically, not least to depict my world. Later, I developed into a producer, director and screenwriter for adventure and nature sports. Together with my wife Ruth, I have been running our company Planet Watch GmbH which specializes in documentation since 1996. I have been married to Ruth since 1992 and we are the happy parents of our three children Marvin, Mara and Mona. The focus of our filmmaking are stories about people who are "unvarnished" actors in their own lives. Last but not least, nature serves and helps us as a grandiose setting for depicting extraordinary successes and dramas.
